

Wasp-X™

Wasp & Hornet Spray

KILLS ON CONTACT

JET SPRAY – WILL REACH NESTS UP TO 20 FEET AWAY

FOAMING FORMULATION PROVIDES RESIDUAL ACTIVITY

CAN BE USED INDOORS (ATTICS AND OTHER PLACES WHERE NESTS ARE BUILT) AND OUTDOORS ON WASP AND HORNET NESTS ATTACHED TO BUILDINGS

SPECIMEN LABEL

ACTIVE INGREDIENTS:

Etofenprox (CAS# 80844-07-1)	0.5%
Tetramethrin (CAS# 7696-12-0)	0.2%
Piperonyl butoxide (CAS #51-03-6))	1.0%

OTHER INGREDIENTS*:	98.3%
Total	100.0%

*Contains petroleum distillates

EPA Reg. No. 2724-786 EPA Est. No. 11623-GA-1

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water.

PHYSICAL HAZARDS

Contents under pressure. Do not use or store near heat or open flame. Do not puncture or incinerate container. Exposure to temperatures above 130° F may cause bursting.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

READ THE ENTIRE LABEL PRIOR TO USE. USE STRICTLY IN ACCORDANCE WITH ALL LABEL PRECAUTIONS AND DIRECTIONS.

Use Zoëcon® Wasp-X™ Wasp & Hornet Spray to kill wasps, hornets, yellow jackets, and other pests outdoors and indoors. Outdoor locations are restricted to those attached to the outside surfaces of building structures. Indoor locations would be identified as attics, steeples, mechanical rooms, barns, sheds, non-food/non-feed warehouses, garages, and carports. Do not apply indoors in habitable portions (areas) of domestic/residential dwellings, i.e., homes, residences, apartments, hotels, etc. **DO NOT TREAT ANIMALS WITH THIS PRODUCT.** Remove livestock and pets before spraying indoors. Do not allow children or animals to contact treated surfaces until spray has dried.

Prior to treatment, shake can well, hold can upright and stand upwind at a safe distance from nests, and spray away from self and other persons. This product is generally non-staining but is not recommended for vinyl siding. In areas of concern, test product in a small, inconspicuous area to determine if staining potential exists.

KEEP OUT OF REACH OF CHILDREN

CAUTION

SEE ADDITIONAL PRECAUTIONARY STATEMENTS

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Causes moderate eye irritation. Avoid contact with eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

FIRST AID

If in eyes • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first five minutes, then continue rinsing. • Call a poison control center or doctor for treatment advice.

NOTE TO PHYSICIAN: Contains petroleum distillates - vomiting may cause aspiration pneumonia.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. You may also call 1-800-248-7763 for emergency medical treatment information.

WASPS, HORNETS, AND YELLOW JACKETS

Wasps – Spray nest until thoroughly wet. Wasps on the nest will fall quickly to the ground, wasps returning to the nest will be killed by the residual action of the spray. Wait 24 hours before removing nest.

Hornets – Hornets build nests under eaves and in sheltered spaces of buildings. It is best to wait until dusk or early morning to treat as hornets are less active at that time. Locate entrance hole in the nest and thoroughly spray the entrance hole. Spraying the outside of the nest and not the entrance hole will not have the desired effect and may cause hornets to attack. For best results for large nests, repeat application.

Yellow Jackets – Locate entrance holes, note that there may be more than one. Wait until dusk or early morning to spray. Spray entrances thoroughly. For best results for large nests, repeat application.

OTHER OUTDOOR PESTS

Ants – Spray ants, building foundations, and locations where ants are entering a building. Directly hit as many ants as possible with the spray.

Cockroaches – Treat for cockroaches at locations where they live and potential entry points, such as areas where outside plumbing enters the building and cracks or crevices in the foundation. Spray cockroaches directly when seen.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

STORAGE: Do not store near heat or open flame. Store in cool, dry area away from children.

DISPOSAL: Do not puncture or incinerate! **If empty:** Place in trash or offer for recycling, if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

WARRANTY

Buyer assumes all risks of use, storage, or handling of this material not in strict accordance with directions given herewith.
